Students have the privilege of renting books at a nominal rate, excepting that Literary Classics and books on Pedagogy must be bought. All such books are sold here at first cost, including cost of shipment.

While the opportunity to rent books is always open to students, they are strongly urged to buy most of the books they will use. This advice is given because of the value such books will be to persons when they become teachers, no matter whether or not they are the books used in the district in which the person teaches.

General Information

The Aim.

The distinctive aim of a Normal School is the preparation of teachers for service in the public schools. The methods of teaching and government which grow naturally out of this aim, are best suited to the education of all who would be prepared for life.

Since the teacher must be an independent learner, our class-room work is designed to foster this quality. A subject is not considered learned when a student is able to answer any number of leading questions of fact; the evidence of accomplishment is seen rather in his ability to treat the subject without the aid of a teacher's questions—to grasp its philosophy, and to become so thoroughly the master of it that he can rationally question another.

Furthermore, the really successful teacher must be a person of unsullied character and of a strongly formed habit of self-control. Accordingly, our disciplinary aim is to develop these qualities. Obedience to regulations, sympathetic co-operation in all requirements, and interested endeavor in all school duties, are expected of every student.

Parents are urged not to look upon this as a reformatory, and not to send to us vicious or immoral persons to be educated. All that lies in the power of the faculty will be done for those who strive to help themselves. Others will be advised to withdraw. The time and energy of an earnest and superior faculty is too largely expended in teaching well and in helping faithful people, to justify any other course.

The Plan.

The especial mental equipment of a teacher (aside from character and a forceful personality), consists of (1)—Knowledge of the subject matter to be taught; (2)—Knowledge of the laws of mental action; (3)—Knowledge of those methods of imparting instruction and of moving the will which are in most complete harmony with the laws of mental action. This last knowledge may be either theoretical or practical; with the artistic teacher it is both.

In this school the student receives his knowledge of subject matter in his daily study and recitations. He acquires an elementary knowledge of the laws of mental action by the study of Psychology. In order to supply him with theoretical knowledge of the best method of imparting instruction and of moving the will, we give regular instruction in methods of Teaching, School Economy and History of Education. Finally, to furnish him, as far as possible, with the needed practical skill, we introduce the Senior to the work of actual teaching in the Model School.

Buildings and Grounds

The Normal School buildings present a noble and imposing aspect. The school grounds have an area of ten acres. The lawns about the buildings are beautifully laid out and covered with a great variety of forest trees. The sports of the school are carried on in Smythe Park, a beautiful enclosure in Mansfield of about 30 acres, containing a ball field that is unexcelled, and with seating accommodations for five thousand people.

SOUTH HALL.

This is a brick structure, one hundred fifty feet in length by fifty feet in width. In this building are the men's dormitories, the circulating library, reading room and reference library, five recitation rooms, and the text-book library. This building, formerly the old seminary, was enlarged and remodeled in 1889. One hundred and fifty feet north of South Hall, stands the

NORTH HALL.

This building is in process of complete reconstruction. When finished it will be one of the finest school buildings in the country. It is two hundred seventy feet long by one hundred feet wide, and five stories high. It contains the Principal's office, dormitories for the women, reception rooms, suite of rooms for the Art and Music departments, an elegant dining room large enough to seat five hundred, passenger and freight elevators, the kitchen, bakery, etc. Two stories of an ell, completely removed from the other rooms, are set apart as an infirmary. They are furnished with every appliance for the sick. The dormitories on each floor of both buildings are supplied with bath tubs, and everything needed for health and comfort. All the buildings are heated by steam, lighted by electricity, and supplied with fire escapes of the best construction. The cost of the North building when completed, and furnished, will not be less than $150,000. Midway between the North and South buildings is

ALUMNI HALL.

This is a brick building, fifty-four by one hundred seventeen feet, three stories high. It contains the Model School rooms, recitation rooms, and a concert hall which occupies one entire story. This building was completed in 1886 at a cost of $25,000. In the rear of the South building stands the

GYMNASIUM.

This is a fine structure; it is a frame building, fifty by one hundred thirty feet, it contains a large drill hall, fifty by one hundred feet, two spacious rooms adjoining, used for dressing rooms, and one class room. The drill hall is well furnished with apparatus. This building was erected in 1888 at a cost of $7,000.

FREE TUITION.

To each student who, upon registration, signs an agreement in accordance with the Act of Legislature quoted below, **Tuition in the Regular Normal Department is FREE.** (This free tuition is always conditioned upon succeeding Legislatures continuing to make appropriations for such purpose.)

"For the support of the Public Schools and Normal Schools of this Commonwealth for the two years commencing on the first day of June, one thousand nine hundred and one, the sum of eleven million dollars. * * * * For each student over seventeen years of age who shall sign an agreement binding said student to teach in the common schools of this state two full annual terms there shall be paid the sum of one dollar and fifty cents a week in full payment of the expenses for tuition of said student; provided, that each student in a State Normal School drawing an allowance from the State must receive regular instruction in the science and art of teaching in a special class devoted to that object for the whole time for which such allowance is drawn, which amount shall be paid upon the warrants of the Superintendent of Public Instruction." (Persons can receive the benefit of this State aid from the time they are seventeen years of age.

Teachers who enter for the Spring Term as soon as their schools are closed, will be charged, according to the above term rates, for time they are in actual attendance, **Provided They Remain to the End of the Term.**

In all private work students will be charged for lessons that they lose through temporary absence, excepting that in absence due to illness, they will be given an opportunity to make up lost lessons, whenever the teacher's time will admit of it.

DEDUCTIONS.

Deduction will be made to students in the regular Normal work, who are absent from school two consecutive weeks or more on account of sickness or for other satisfactory reasons.

No deduction will be made to students entering within the first two weeks, or leaving within the last two weeks of a term.

PAYMENTS.

TO WHOM MADE—All checks should be drawn to the order of the State Normal School, and payment be made to the Principal.

The remaining amount for the Fall Term is payable, Oct. 27, 1908; for the Winter Term, Feb. 9, 1909; and for the Spring Term, May 11, 1909.

(The Registration Fee must be paid each term before a student will be allowed to enroll for any of the work).

DAY STUDENTS—Those who do not receive State Aid are required to pay the term's tuition in the regular Normal Department the first day of the term.

STUDENTS IN SPECIAL DEPARTMENTS—Tuition for the term, in the special department, strictly in advance; and a receipt for the same must be presented to the teacher before beginning the lessons.

Not in the Curriculum

Education means more than that which is received from text-books or imparted in the class room. There are certain cultural elements which will be found in every wisely educated person—elements that cannot easily be described, but whose absence in anyone makes him a marked person.

ETIQUETTE—Great care is taken in this school to supply these features of a true education. Specific addresses are given from time to time, by members of the faculty, upon the various phases of "good form." These teachings are insisted upon in the lives of members of the school.

SOCIAL LIFE—As this is a co-educational institution, frequent occasions are made for the natural and proper association of the sexes—always under the chaperonage of members of the faculty.

Fraternities and Literary Societies add to these cultural elements in the student's life. These are re-enforced by many literary, musical and scientific gatherings to which pupils are urged to give their time and effort.

LIBRARY—As an adjunct to all this, and also an essential aid to class work, the school is supplied with a superior circulating and reference library, selected by the librarian and the teachers of the several departments. More than seven hundred and fifty volumes are added yearly, and it is catalogued after the most modern and approved plan. It is housed in a commodious and well-lighted room, and to the library is added a great list of the leading magazines and the daily and weekly papers.

LIBRARY STUDY—About one hundred students were this year given a course in library work, thus fitting them the better to use and enjoy libraries and to direct the reading of their pupils. An especial phase of the work was the study of Juvenile Literature.

ENTERTAINMENT COURSE—Believing that a school cannot fail to lose much of its vitality if it holds itself aloof from activities beyond itself, we maintain a superior course of Lectures and Entertainments each year. Hereafter these lectures will be open to all students of the school, the enrollment fee paying for the Course Ticket.

ENVIRONMENT—But choice cultural elements cannot be wrought into one's habit of life unless his environment lends constant support to that end. Therefore it is that our pupils are brought to a dining-room, unexcelled by any school whether we consider the quality of what is furnished or the attractiveness of the room in which it is enjoyed; the rooms of our students are the most commodious and the best furnished to be found in any school of our class; while the corridors and public

rooms are adorned with statuary and pictures which reflect the choicest that art has yet produced.

RELIGIOUS AIDS—The religious element in our natures receives here the attention which its importance merits. Without a touch of sectarianism, but with constant regard for those of all faiths, the very life of the school is made to reveal the spirit of true religion. Bible study, stated meetings for devotion, missionary study, and religious addresses—all under the auspices of the Y. M. C. A., and the Y. W. C. A.—although purely voluntary, are always encouraged, and are largely attended. Sunday morning church attendance is officially required.

ATHLETICS—Athletics comes in also for its due share of attention. A committee of Trustees and Teachers controls this phase of the school's activities. And while not a cent is given to anyone because of the part he may take in athletics, nor a favor shown to him for such part, all are encouraged to persevere in whatever phase of manly sport may be to their liking. Frequent inquiries are received from individuals asking what will be "done for them," if they will come and enter one of our ball teams. To such inquiries there is only one reply given, which is in affect this: Absolutely nothing will be done for you because of any part you may take in the sports of the school; if you are seeking a place where you may get a first class education, we believe you can find it here; if to this you wish to add some praticipation in the school's sports the way for it is wide open provided you can make a place on one of the teams, and will attend to your school work while you are doing it.

The games of Foot Ball, Basket Ball and Base Ball are now open to all members of the school, the enrollment fee paying for the ticket.

PHYSICAL CULTURE—Aside from the above named sports of the school, especial attention is given to Physical Culture. This is for the health, strength and grace of the individual, as well as for its value to him as a teacher. In this work pupils are required to wear clothing suitable for such exercises—divided skirt and loose blouse for the ladies; a negligee shirt for the men, and rubber-soled shoes for all. Students are advised not to get suits until they reach Mansfield, so that all may follow an approved pattern. They can be procured here at very slight cost.

STUDENTS' ROOMS—The educational influence of our students' rooms is not overlooked. Excepting a few small rooms, designed for one person each, they are commodious and are tastefully decorated and furnished. Two students are expected to occupy a room, except by previous arrangement with the Principal and the payment of an excess fee of fifty cents per week.

Ladies' rooms are furnished with carpet, rockers, straight chairs, tables, bed-room set complete, pillows and one comfortable, mirror on dressing case.

Gentlemen's rooms are furnished with arm chairs, straight chairs,

tables, wash-stand, dressing case with mirror, bed, pillows and one comfortable.

All rooms are heated by steam and lighted by electricity.

Students' furnish napkins, towels, pillow-slips, sheets and one comfortable. The last article named, together with all articles to be laundered, should be distinctly marked with the owner's name.

BAGGAGE—For two days at the opening and two days at the close of each term, students' baggage is carried to and from the railway station free of charge.

SCENE ON CAMPUS

Honors

Gold medals are offered to the members of the Senior class for excellence in oratory and original composition, the contest to take place during Commencement week. No person is allowed to compete for the gold medal unless his past conduct justifies such a public appearance.

Nominations for Senior Class-Day honors must be submitted to the Faculty for approval before the persons can be elected.

1. OF GENERAL HONORS.

Each class is divided into three groups, viz; Honor, Credit, Graduation.

The Honor group comprises those whose average is 90 per cent. or over; the Credit group those whose average is from 85 per cent. to 90 per cent. Average for graduation cannot be below 75 per cent.

Announcement of the standing of the first two groups in each class will be made at Commencement.

2. OF DEPARTMENT HONORS.

Honors will be awarded at the end of the course, based upon the average grade in the required and elective work, in these departments, viz: Pedagogics; English; Language; Mathematics; Natural Sciences; Historical Sciences; Arts. A student receives an Honor in any department in which he shall have stood 90 per cent. or better, having in every case an examination record for the subjects upon which the Honor is based, and lacking term record upon not more than one-third of the credits in these subjects.

The various departments or groups of studies shall be constituted as follows:

1. **PEDAGOGIC,** including: 1. Psychology. 2. Logic. 3. Ethics. 4. School Management. 5. Methods of Teaching. 6. Teaching. 7. Critic Work. 8. History of Education.
